

What is Piedmont's Disconnect Policy?

Our ability to provide reliable service depends upon the timely receipt of your payment. Piedmont Water Company reserves the right to disconnect service if an account has an overdue balance of \$30.00 or more or is more than one month past due.

Once an account is processed for disconnection, the total amount of all charges and a \$75 processing fee must be received in the Atlanta office before reconnection of water service is ordered.

Please note that meter tampering is considered theft of service and is subject to a minimum \$250 fine and is punishable in a court of law.
